What We Can Learn from Other Cultures

For new perspectives on ourselves and the world

Gundula Gwenn Hiller

Using cross-cultural perspectives to rise to the challenges of the future

Health, good interpersonal relationships, mutual respect for others and sustainable behaviour are increasingly prioritised above more traditional concerns. More and more of us are seeking a better work-life balance; society is crying out for greater cohesion; our economy is in desperate need of innovation, diversification and flexibility. The problem is that our current value system – and the cultures that currently prevail within education, business and society – are in many ways counterproductive to achieving these goals.

Living in an individualistic society, there is much we can learn from other cultures about improving our social togetherness, leading more joyful and meaningful lives and, ultimately, guiding our own culture towards a healthier and more sustainable way of thinking and acting. This book shows how it's done. Gundula Gwenn Hiller, a renowned expert on interculturality and diversity, invites us to explore what we can learn from other cultures and offers solutions for individual and societal challenges.

USP:

- How global wisdom can aid your pursuit of a better future
- Fascinating insights into your own cultural identity
- What you can learn from other cultures to help you rise to the challenges of today

Plan ahead. Invest successfully.
Be financially independent

Karolina Decker, Rica Klitzke,
Leitha Matz

Women: claim your financial power!

Today, women pursue careers, found businesses, manage teams, raise children and deal with a multitude of family responsibilities. Their own needs and interests often fall by the wayside – especially when it comes to money matters.

High time, then, for women to take their financial security into their own hands. There is a plethora of life events – divorce, bereavement, disability and more – that can throw a seemingly certain life plan into disarray. In addition, it has never been more vital to plan early for retirement. With this in mind, this comprehensive financial guide shows how women can act to claim their financial independence. The expert authors foster a positive, open attitude towards the subject of money, answer key questions on investing with confidence and address many of the life situations women typically face.

A new work from the SPIEGEL and manager magazin bestselling author

Make over your personal brand with the help of an expert in professional positioning

Many of us believe that if we want to succeed, we need to adapt ourselves. Leading positioning expert Herman Scherer argues that the opposite is the case. “Those who bend too much to what others expect of them will never realise their full potential,” he says. “We can all shine as individuals if only we take time to find the right frame.”

The key to doing this is to listen to your inner voice. What drives you? What do you really want to achieve? What’s preventing you from doing so? Perhaps you haven’t (yet) found the right frame. Does your work allow you to embody your values? Are you on the right path to achieve your goals?

Packed with inspiring stories of real people who found their own frames, this book shows you the right questions to ask. Scherer provides his best hacks and proven ‘how-to’ strategies to allow you to dive straight into action. It is only by finding the right setting, he argues, that your unique skills and qualities will be appreciated for what they are worth.

- Easily establish new ways of working and confidently embrace a fresh start
- An indispensable guide for high performers – whether in start-ups, DAX companies or anything in between

How to reset and come back stronger

Have you ever had the feeling that you're treading water professionally; that you're coming up against limits in terms of what you can achieve? If so, says Christian Greiser, it might be high time to take some time out. Careers progress through distinct phases: we climb the career ladder, we change direction or set up a business and, eventually, we retire. As different as these phases are, so too are the rules of success that govern them. If we are to keep succeeding, we must mentally 'shift gears' and realign ourselves accordingly along the way. We must take an honest and sometimes challenging look at our own character: understanding the inner driving forces behind our previous successes, questioning our patterns of behaviour and discarding the behaviours that no longer serve us. In this way, we can accomplish the transition to the next phase of our life and career and come back stronger than before.

Passionate 'career technician' Christian Greiser is here to help us do just that. In this humorously written new book, he draws on insights from his many years of experience as an executive coach and incorporates research findings, case studies and exercises to show how we can reset our mental attitude and achieve success and fulfilment in the next phase.

Günter Gets Rich

An accessible look at personal wealth and making the voice in your head work for you

Stefan Frädrich

Meet Günter – the voice that lives inside your head and works hard to protect you from all the world's evils.

Whenever you want to do something new or try something out of the ordinary, Günter is on hand to shut it down. **“Stop that!”** he cautions. **“That’s far too difficult! Better to let others do it instead!”** He never tires of holding you back.

And though life is full of exciting challenges – things that can help you progress and grow – you prefer to consider them as problems to avoid. Treading water feels much safer. **Thanks, Günter!**

Unlucky, then, that while taking the easy road might seem convenient in the moment, it’s a highly inconvenient approach in the long term. Because life is constantly changing, we, too, need to change: accepting challenges, always learning, working on our self-development. Otherwise, we find ourselves left behind. Small problems become big. This is how it’s always been – and how it always will be, Günter or not.

But what if Günter could learn to support us?

Take an exciting journey through key insights from motivational psychology. With guaranteed laughs out loud and humorous illustrations by Timo Wuerz.

Reviews in the German Media

“Actually, you’d much rather chill out in the sun, instead of being stressed out in the office? Stefan Frädrich gives 100 tips on how you can still motivate yourself to go to work.” **Freundin**

“Stefan Frädrich, the author and Timo Wuerz, the illustrator, know all the tricks with which Günter tries to make our life easier.” **Welt am Sonntag**

“Dr. Frädrich’s incantations are surprisingly effective.” **RTL**

The ultimate financial handbook for beginners, indecisive savers and Günter fans

Günter is the voice in our head that holds us back. With a seemingly endless supply of doubt and negativity, he constantly questions what we’re capable of. Moreover, although Günter has not the first clue about personal finances, he is all too happy to tell us what to do. Better, then, that Günter learns what it really takes to get rich: how to make good money, earn automatic returns, achieve financial freedom and avoid classic pitfalls. After 100 illustrated chapters, Günter is altogether better informed – and is transformed from inner naysayer to personal expert financial advisor.

Stefan Frädrich’s new book is a comprehensive financial crash course that conveys the ABCs of personal wealth in Frädrich’s characteristically succinct and accessible style. He teaches earning money, keeping money, investing money, increasing money and enjoying money – all in line with the reader’s personal philosophy and resources and without exposing them to a possible crash. The text is accompanied by characterful illustrations from Timo Wuerz.

USP:

- Finance, investments and tips for personal wealth in an entertaining, succinct and easy to understand package
- Invest and prepare for the future – sustainably and with a clean conscience

Bright Future Business

How to guide your business to prosperity and longevity

Pero Mičić

What to do today to be successful tomorrow

Small and medium-sized enterprises are the backbone of the German economy: 99.5% of German companies employ less than 250 employees. Yet for all its acclaim, the SME sector looks to the future with justified concern. The threat of being eaten up by competition has never looked so great.

The good news is that the path to a bright future business is open to all, so long as they recognise the right levers to pull and are willing to act with courage. In his new book, Pero Mičić – an expert in future management, an entrepreneur and an experienced business consultant – lays out what this entails, with detailed recommendations for action based on the case studies of three real-life entrepreneurs. Whether you manage five employees or 250; whether you're a solopreneur, a business owner or the managing director of an SEO, this systematic yet practice-oriented guide reveals what you must know and do today in order to be (more) successful tomorrow. This roadmap to a successful business future is complemented by add-on digital content including videos and workshops.

30 MINUTE ESSENTIALS

Get key insights for your personal and professional development from leading business experts

We all sometimes feel sorry about how things have turned out; we've all searched in the rear-view mirror for someone else to blame. This is human nature – and it can serve as valuable feedback to us, if we use it wisely. We must look back honestly and candidly on past events in order to move forward with purpose.

But how exactly to do this? How do we break out of the permanent cycle of self-pity, excuses and finger-pointing and begin to engage with life more constructively? This book teaches how to approach a solution from several angles, develop greater personal accountability and stop blaming the world for our problems.

A resilient psyche is a critical success factor for addressing all types of crises proactively and with favourable outcomes.

This book shows how to equip yourself optimally by increasing your stress resistance through a healthy lifestyle. In addition to adequate exercise and a balanced diet, this also includes productive coping strategies for dealing with emotions and a reflective attitude towards the self. The good news is all of this can be learned and practised – and that in times of hybrid working, the increasingly flexible choice and design of workplaces can aid us on this path to well-being.

The metaverse is the next evolutionary stage of the internet: one in which the virtual and physical worlds increasingly overlap. It will effect permanent changes to the way we live, work, learn, communicate and consume. Oft-heralded as the “Next Big Thing”, it could soon become as profound and important a change as the invention of the Internet, the smartphone or social media.

Though the metaverse is still in its relative infancy, it is nonetheless important for companies and decision-makers not merely to observe this rapid change but to proactively engage with it. Companies that address the opportunities and implications of the metaverse today will have a clear knowledge advantage and competitive edge tomorrow, as the concept moves firmly into the mainstream.

Knowledge, in a nutshell

The 30-Minute series now comes in a new, modern look that complements the topicality of the content and the compact format. Penned by authors with vast real-world experience, the 30-Minute titles offer concise, accessible introductions to highly relevant themes and methods from the world of work. They're quick, easy reads that are enjoyable as they are informative.

Now more than ever before, it is important to examine our financial choices with environmental friendliness in mind. Admittedly, thanks to the (sometimes radically) anti-climate stance of individual financial market participants, the lack of consistent data, the non-uniform classification of financial products and the enormous complexity of the topic, it can be difficult to know where to start. That's where this guidebook comes in. It seeks to provide readers with a set of clear grounding principles, enabling them to recognise greenwashing and other common sins more easily and to chart their personal course to a more sustainable financial portfolio.

To assert oneself means to stand up for oneself in conflict between different interests. Today, this skill is a core competence, both professionally and privately: In the age of enlightened egoism, our ability to assert ourselves is put to the test every day. The more we define ourselves through our networks, however, the more important stable relationships become. Those who can't assert themselves will go down - but so will those who go overboard to do so. In this guidebook, René Borbonus shows how we can stand our ground even in the face of resistance without tearing down social bridges. The practical tips cover everyday conversation as well as goal-oriented negotiation and conflict behavior.

Your step-by-step guide to achieving financial freedom

ON THE MONEY teaches fundamental principles for a new understanding of money: one characterised by personal maturity, social and economic responsibility and a sophisticated appreciation of value. It equips readers to develop a responsible approach to money based on a new mindset, a change in financial behaviour, the development of their financial character, a concrete grasp of the ways that money can be multiplied and, above all, an awareness of their financial 'why'. It also helps them solidify an ethical system of values in which money is viewed the context of responsibility for oneself and the wider planet.

Madame Missou

From girlfriend to girlfriend – The gift of good advice

Madame Missou understands me! She gives me advice for my everyday life, on matters like chaos management and multitasking – yet she also spurs me to think about the overriding issues that concern me:

- How can I become more self-confident?
- What path will lead me to find more inner balance?
- What can I learn from my dreams?

And the best thing is that Madame Missou meets me at eye level. Her life experience means that she's not easily rattled, and I benefit from her pragmatic view of things. Basically, we'd all love to be a bit like her – both feet planted firmly on the ground, actively shaping her own future, enthusiastic, honest with herself and with others ... and always ready for a laugh!

Around the World

Madame Missou understands me and gives me advice for my everyday life such as:

- 15 Tricks for Everyday Good Moods
- Uncluttering for beginners in 8 steps
- 20 effective healthy living tips for everyday life
- The ten most important steps to a strong self-confidence
- 25 things that bring us joy
